25th September 2002.

Dear Phil

Many, many thanks for your training course of 12th September 2002, including the follow up information pack and certification.

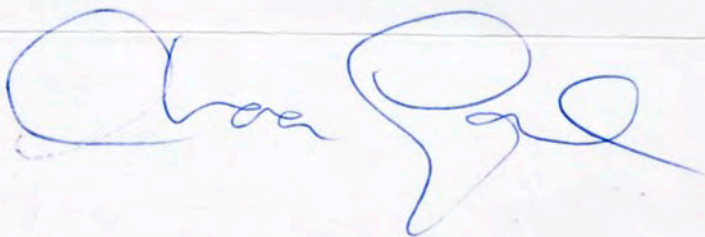

This is now the second time that the Dunstall Park Centre has used Alpha Fire Training to provide our in-house fire awareness training and on both occasions the service provided has been excellent.

The courses have not just been informative but motivating and the feedback from all staff who participated has been very positive.

We would not hesitate to call upon your services for our future training needs and would highly recommend you to other businesses.

Our thanks once again and we look forward to working with you in the future.

Kind regards

Shara Lyons
Personnel Officer
